Out of the Shadows - Jonathan Charles Kingsman - 2019-11-06
In 1979, Dan Morgan, a journalist with the Washington Post, wrote Merchants of Grain, a definitive history of the international grain trade. In the 40 years since Dan’s book was published the grain markets have changed almost beyond recognition. So too have the merchants of grain. Once shadowy figures, grain merchants have now come out of the shadows. Almost everything that you eat or drink today will contain something bought, stored, transported, processed, shipped, distributed or sold by one of the seven giants of the agricultural supply chain. The media often refers to them as the ABCD group of international grain-trading companies, with ABCD standing for ADM, Bunge, Cargill and Dreyfus. The acronym, though, ignores the other three giants of the food supply: Gencore, COFCO International and Wilmar. Together, they handle 50 percent of the international trade in grain and oilseeds. In this book’s series of exclusive and unprecedented interviews, CEOs and senior traders from these seven giants describe in their own words how the agricultural markets are changing, and how they are adapting to those changes. Accompanying text explains how grain trading works, what grain traders do, and the journey that your food takes before arriving on your plate.This is the inside story of the grain market and of the seven companies at the centre of the world’s food supply.

Laundry Love - Patric Richardson - 2021-03-30
Patric Richardson, aka the “Laundry Evangelist,” reveals his revolutionary methods for cleaning clothes—and
making laundry loads more fun. Doing laundry is rarely anyone’s favorite task. But to Patric Richardson, laundry
isn’t just fun—it’s a way of life. After years of running Laundry Camp at the Mall of America for thousands of
eager learners, he’s ready to share his tips, tricks, and hacks—bringing surprise and delight to this commonly
dreaded chore. Sorting your laundry? It’s not all about whites and darks. Pondering the wash cycles? Every load,
even your delicates, should be washed using express or quick-wash on warm. Facing expensive dry cleaning bills?
You’ll learn how to wash everything—yes everything—at home. And those basically clean but smelly clothes?
Richardson has a secret for freshening those too (hint: it involves vodka, not soap). Changing your relationship
with laundry can also change your life. Richardson’s handy advice shows us how to save time and money (and the
planet!) with our laundry—and he intersperses it all with a healthy dose of humor, real-life laundry stories, and
lessons from his Appalachian upbringing and career in fashion. Laundry Love will make you wonder why you ever
stressed about ironing, dry cleaning, or (god forbid) red wine spills on your new couch. No matter the issue,
Richardson is here to help you make laundry miracles happen—wrinkles and stains be damned.

Self Comes to Mind - Antonio Damasio - 2010-11-09
A leading neuroscientist explores with authority, with imagination, and with unparalleled mastery how the brain constructs the mind and how the brain makes that mind conscious. Antonio Damasio has spent the past thirty years researching and revealing how the brain works. Here, in his most ambitious and stunning work yet, he rejects the long-standing idea that consciousness is somehow separate from the body, and presents compelling new scientific evidence that posits an evolutionary perspective. His view entails a radical change in the way the history of the conscious mind is viewed and told, suggesting that the brain’s development of a human self is a one of our most defining characteristics as thinking and self-aware beings.

Sourdough Culture - Eric Pallant - 2021-09-14
Sourdough bread fueled the labor that built the Egyptian pyramids. The Roman Empire distributed free sourdough loaves to its citizens to maintain political stability. More recently, amidst the Covid-19 pandemic, sourdough bread baking became a global phenomenon as people contended with being confined to their homes and sought distractions from their fear, uncertainty, and grief. In Sourdough Culture, environmental science professor Eric Pallant shows how throughout history, sourdough bread baking has always been about survival. Sourdough Culture presents the history and rudimentary science of sourdough bread baking from its discovery more than six thousand years ago to its still-recent displacement by the innovation of dough-mixing machines and fast-acting yeast. Pallant traces the tradition of sourdough across continents, from its origins in the Middle East's Fertile Crescent to Europe and then around the world. Pallant also explains how sourdough fed some of history's most significant figures, such as Plato, Pliny the Elder, Louis Pasteur, Marie Antoinette, Martin Luther, and Antonie van Leeuwenhoek, and introduces the lesser-known—but equally important—individuals who relied on sourdough bread for sustenance: ancient Roman bakers, medieval housewives, Gold Rush miners, and the many, many others who have produced daily sourdough bread in anonymity. Each chapter of Sourdough Culture is accompanied by a selection from Pallant's own favorite recipes, which span millennia and traverse continents, and highlight an array of approaches, traditions, and methods to sourdough bread baking. Sourdough Culture is a rich, informative, engaging read, especially for bakers—whether skilled or just beginners. More importantly, it tells the important and dynamic story of the bread that has fed the world.

"A wonderfully readable account of Chicago's early history" and the inspiration behind PBS’s American Experience (Michiko Kakutani, The New York Times). Depicting its turbulent beginnings to its current status as one of the world’s most dynamic cities, City of the Century tells the story of Chicago—and the story of America, writ small. From its many natural disasters, including the Great Fire of 1871 and several cholera epidemics, to its winner-take-all politics, dynamic business empires, breathtaking architecture, its diverse cultures, and its multitude of writers, journalists, and artists, Chicago's story is violent, inspiring, passionate, and fascinating from the first page to the last. The winner of the prestigious Great Lakes Book Award, given to the year’s most outstanding books highlighting the American heartland, City of the Century has received consistent rave reviews since its publication in 1996, and was made into a six-hour film airing on PBS’s American Experience series. Written with energetic prose and exacting detail, it brings Chicago’s history to vivid life. "With City of the Century, Miller has written what will be judged as the great Chicago history." --John Barron, Chicago Sun-Times "Brims with life, with people, surprise, and with stories." --David McCullough, Pulitzer Prize-winning author of John Adams and Truman "An invaluable companion in my journey through Old Chicago." --Erik Larson, New York Times—bestselling author of The Devil in the White City
