This book is a thorough and up-to-date guide for professionals to holistically assess mental health disorders in children and adolescents, from diagnosis to treatment to wellness. The author, a leading psychologist in the field, presents a lifespan approach to mental health assessment and care that utilizes the S-O-A-P (Subjective-Objective-Assessment-Plan) format. Additionally, the author explores complex chronic disease and comorbidity, and suggests evidence-based approaches to treatment.

Clinical Guidelines for Advanced Practice Nursing: Pharmacists, and physicians, it fosters a team approach to health care. Divided into four areas—Pediatrics, Gynecology, Obstetrics, and Adult General Medicine—and covering the major disease processes for each area, this book is an important reference for nurses, pharmacists, and physicians.

Today’s students are busier and more pressed for time than ever. The 5th edition of Health Assessment for Nursing Practice by Susan Wilson and Jean Giddens continues to deliver the essential “nuts and bolts” of evidence-based content in a practical and user-friendly format. Grounded in DSM-V criteria and diagnoses, this guide contains a wealth of resources, including screening tools, parent/patient handouts, and other resources to educate families and help them care for their children.
