Psychologist Lawrence Kohlberg was especially interested in how children develop their ability to make moral decisions like this one. Based on the children's responses, Kohlberg classified their moral reasoning into three levels: Right and wrong are based on social contracts established for the good of everyone and that can transcend. Additionally, Kohlberg's moral development theory postulated that stage development, whenever it takes place, should take place in order. Kohlberg has focused on moral development and has proposed a stage theory of moral thinking which goes well beyond Piaget's initial formulations. A close follower of Jean Piaget's theory of...
