**Readings in the Cantos:**
**Volume I** - Richard Parker -
2018-05-01
This is a three-volume project
of readings of individual
sections from the central
modernist long poem, The
Cantos of Ezra Pound. The
project as a whole represents
a landmark publication for
modernist studies, bringing
together, in a ground-
breaking format, a number of
critical readings of The
Cantos by the world's leading
Pound and modernist
scholars. In each chapter a
contributor approaches either
a single Canto or a defined
small group of Cantos in
isolation, providing a clear,
'reading' that includes an up-
to-date assessment of sources
and an idea of recent critical
approaches to the work. Most
importantly, each essay offers
guidance to those wishing to
understand the works while
contributing to the creation of
a new manner of reading The
Cantos as a remarkably
diverse but coherent work.
This first volume illuminates
the gestation of the Cantos-
technique and includes essays
on the most important Cantos
and groups of Cantos from the
Ur-Cantos (early, discarded
versions of the beginning of
Pound's poem), A Draft of XVI
Cantos (1924), A Draft of the
Cantos 17-27 (1928), and
Eleven New Cantos XXXI-XLI,
also known as "Jefferson-
Nuevo Mundo" (1934).

Christianity and Confucianism - Christopher Hancock - 2020-12-10
Christianity and Confucianism: Culture, Faith and Politics, sets comparative textual analysis against the cultural, political, and religious interaction between China and the West. As the world responds to China's rise and China positions herself for global engagement, this major new study reawakens and revises an ancient conversation. As a generous introduction to biblical Christianity and the Confucian Classics, Christianity and Confucianism tells a remarkable story of mutual formation and cultural indebtedness. East and West are shown to have shaped the mind, heart, culture, philosophy and politics of the other - and far more, perhaps, than either knows or would want to admit. Christopher Hancock has provided a rich and stimulating resource for scholars and students, diplomats and social scientists, devotees of culture and those who pursue wisdom and peace today.

Western Readers - Ming Dong Gu - 2014-11-07

Explores the challenges of translating Chinese works, particularly premodern ones, for a contemporary Western readership. Reacting against the “cultural turn” in translation studies, contributors return to the origin of translation studies: translation practice. By returning to the time-honored basics of linguistics and hermeneutics, the book inquires into translation practice from the perspective of reading and reading theory. Essays in the first section of the work discuss the nature, function, rationale, criteria, and historical and conceptual values of translation. The second section focuses on the art and craft of translation, offering practical techniques and tips. Finally, the third section conducts critical assessments of translation policy and practice as well as formal and aesthetic issues. Throughout, contributors explore how a translation from the Chinese can read like a text in the Western reader’s own language.

Commercial and political bridges across the Pacific generated American literary fantasies of ethical and spiritual accord; Park examines American bards who capitalized on these ties and considers the price of such intimacies for Asian American poets. The book begins its literary history with the poetry of Ernest Fenollosa, who called for "The Future Union of East and West." From this prime instigator of the Gilded Age, Park newly considers the Orient of Ezra Pound, who turned to China to lay the groundwork for his poetics and ethics. Ezra Pound and the Career of Modern Criticism - Michael Coyle - 2018-06-22
This first book-length study of Pound criticism investigates not just what critics have had to say about Pound but also why they have asked the questions they have asked.
Creative writing is a responsive human activity. We use it to respond to the world, to our feelings, to ideas, to observations, to other people, to historical and cultural events, and to the wonders created in our imaginations. This book shows how we go about doing this responding. Contributors discuss practice-led research in creative writing. They look at the ways a writer can use language or employ genre and consider how we each define themes and subjects and use writing techniques to explore to these themes and subjects. In examining creative writing teaching, the contributions gathered here suggest that teaching can be more responsive, more engaged with student interests, and more successful. This book shows that exploring creative writing, through a variety of means, can produce inventive, energetic results that can improve our own creative writing, as well as critical understanding of creative writing.

Making and Seeing Modern Texts explores the poetics of texts through a close reading and analysis across the genres of poetry, drama, fiction, non-fiction travel literature and theory. This volume demonstrates that prose, as much as poetry, share the making and seeing of language, literary practice, and theory. Genre, then, is presented as a guide that crosses multiple boundaries. Consumption and Depression in Gertrude Stein, Louis Zukovsky and Ezra Pound - L. Carson - 1999-01-29
The career of Ezra Pound has come to represent the political tendencies which, it has been claimed, are inherent to modernist aesthetics. But the political impulses of the modernists cannot be adequately represented by Pound's extreme positions; Pound's own political activities and commitments, in fact, do not adequately articulate the contradictory attitudes and beliefs that made them possible. By contrasting Pound's politics to the political values and beliefs of Gertrude Stein and Louis Zukofsky during the Depression, this book argues that these three very different writers share a complex set of attitudes and beliefs that are grounded in a collective social fantasy corresponding to the rise of mass consumption and the emergency of corporate social forms.

The skillful use of the Scots language has long been a distinguishing feature of the literatures of Scotland. The essays in this volume make a major contribution to our understanding of the Scots language, past and present, and its written dissemination in poetry, fiction and drama, and in non-literary texts, such as personal letters. They cover aspects of the development of a national literature in the Scots language, and they also give due weight to its international dimension by focusing on...
translations into Scots from languages as diverse as Greek, Latin and Chinese, and by considering the spread of written Scots to Northern Ireland, the United States of America and Australia. Many of the essays respond to and extend the scholarship of J. Derrick McClure, whose considerable impact on Scottish literary and linguistic studies is surveyed and assessed in this volume.

**Ezra Pound and Neoplatonism** - P. Th. M. G. Liebregts - 2004
This book is a detailed study of Ezra Pound's explicit and implicit use of elements of the Neoplatonic tradition in his prose and poetry, and of the way it informed his poetics as well as his political and social-economic views. The book not only discusses the ideas of those Pound considered to be leading figures in the development of Neoplatonism (such as Plotinus, Dionysus the Areopagite, Eriugena, Dante, Gernisthus Plethon, and Thomas Taylor), but, more importantly, it shows how and why Pound adapted
as an ongoing Neoplatonic notions to develop his interpretation of what he saw as an ongoing Neoplatonic tradition. Through this adaptation of Neoplatonism, Pound's work may be seen as an insightful commentary upon this religio-philosophical tradition as well as a contribution to it.

The Chinese Written Character as a Medium for Poetry - Ernest Fenollosa - 2009-08-25
First published in 1919 by Ezra Pound, Ernest Fenollosa’s essay on the Chinese written language has become one of the most often quoted statements in the history of American poetics. As edited by Pound, it presents a powerful conception of language that continues to shape our poetic and stylistic preferences: the idea that poems consist primarily of images; the idea that the sentence form with active verb mirrors relations of natural force. But previous editions of the essay represent Pound’s understanding—it is fair to say, his appropriation—of the text. Fenollosa’s manuscripts, in the Beinecke Library of
related talks reveal the see this essay in a different light, as a document of early, sustained cultural interchange between North America and East Asia. Pound’s editing of the essay obscured two important features, here restored to view: Fenollosa’s encounter with Tendai Buddhism and Buddhist ontology, and his concern with the dimension of sound in Chinese poetry. This book is the definitive critical edition of Fenollosa’s important work. After a substantial Introduction, the text as edited by Pound is presented, together with his notes and plates. At the heart of the edition is the first full publication of the essay as Fenollosa wrote it, accompanied by the many diagrams, characters, and notes Fenollosa (and Pound) scrawled on the verso pages. Pound’s deletions, insertions, and alterations to Fenollosa’s sometimes ornate prose are meticulously captured, enabling readers to follow the quasi-dialogue between Fenollosa and his posthumous editor. Earlier drafts and
development of Fenollosa’s ideas about culture, poetry, and translation. Copious multilingual annotation is an important feature of the edition. This masterfully edited book will be an essential resource for scholars and poets and a starting point for a renewed discussion of the multiple sources of American modernist poetry.

Ezra Pound's Eriugena - Mark Byron - 2014-06-19
Winner of the Ezra Pound Society Book Prize 2014

Ezra Pound's sustained use of ancient and medieval philosophical sources, particularly those within the Neoplatonic tradition, is well known. Yet the specific influence of the ninth-century theologian Johannes Scottus Eriugena on Pound's poetry and prose has received limited scholarly attention. Pound developed detailed plans to publish a commentary on Eriugena alongside his translations of two of the books of Confucianism, plans that ultimately went unrealised.

Drawing on unpublished notes, drafts and manuscripts amongst the Ezra Pound papers held at Yale University, this book investigates the pivotal role of Eriugena in Pound's thought and, perhaps surprisingly, in his deployment of non-Western philosophical traditions.

Yet the specific influence of the ninth-century theologian Johannes Scottus Eriugena on Pound's poetry and prose has received limited scholarly attention. Pound developed detailed plans to publish a commentary on Eriugena alongside his translations of two of the books of Confucianism, plans that ultimately went unrealised.

Drawing on unpublished notes, drafts and manuscripts amongst the Ezra Pound papers held at Yale University, this book investigates the pivotal role of Eriugena in Pound's thought and, perhaps surprisingly, in his deployment of non-Western philosophical traditions.

Ezra Pound's Eriugena - Mark Byron - 2014-06-19
Winner of the Ezra Pound Society Book Prize 2014

Ezra Pound's sustained use of ancient and medieval philosophical sources, particularly those within the Neoplatonic tradition, is well known. Yet the specific influence of the ninth-century theologian Johannes Scottus Eriugena on Pound's poetry and prose has received limited scholarly attention. Pound developed detailed plans to publish a commentary on Eriugena alongside his translations of two of the books of Confucianism, plans that ultimately went unrealised.

**Ezra Pound and Confucianism** - Feng Lan - 2004-12-01
In "Ezra Pound and Confucianism," Feng Lan offers the first study of Ezra Pound's project of establishing a Confucian humanism as an alternative to Western modernism. While Pound scholars are familiar with the American poet's commitment to Confucianism, the question of how Confucianism systematically shaped Pound's thoughts has not been convincingly answered. Lan shows that when confronted with what appeared to him a dehumanising modern world, Pound discovered in Confucianism possible solutions to issues that he encountered in language, Western intellectual tradition as a whole had failed to provide. By integrating Confucian doctrines with received ideas from Western tradition, Pound developed a humanist discourse and brought it to bear on the historical conditions of his time. The result was a discourse characterized primarily by the following beliefs: the human mind as the source of creation, the individual's moral will as the basis of truth and social order, the human partnership with the world of nature, the self-perfectibility of human beings, and their innate capability for internal transcendence in spiritual life. Lan examines the strategies with which Pound reconstructed Confucianism into a systematic modern discourse, focusing on his controversial translation of Confucian scriptures, his rethinking of the nature of language and poetry, his political theory of the individual and the state, and his formulation of an unorthodox spirituality.

**A Preface to Ezra Pound** - Peter Wilson - 2014-09-11

Provides an introduction to the life and works of Ezra Pound, a major modernist poet, theorist and literary critic. Throughout his life Pound was regarded by many to be a contentious and controversial figure, and since his death in 1972, theoretical, biographical commentators have done much to perpetuate this view. Peter Wilson's survey, however, presents a balanced view of his life and work allowing the reader to judge for themselves. The major sections of the book offer introductions to the complex life and work of Pound, outlining the various cultural, political and literary issues which are important to a full understanding of his place in twentieth century English literature. Critical commentaries are then given on all of Pound's major poetry, adopting some analytical techniques from stylistics. Brief biographies of important figures in Pound's career, and in the development of literary modernism are provided. A gazetteer, glossary, and suggestions for further reading complete the book.

In this revisionary study of Ezra Pound's poetics, Scott Hamilton exposes the extent of the modernist poet's debt to the French romantic and symbolist traditions. Whereas previous critics have focused on a single influence, Hamilton explores a broad spectrum of French poets, including Thophile Gautier, Tristan Corbire, Jules Laforgue, Remy de Gourmont, Henri de Rgnier, Jules Romains, Laurent Tailhade, Paul Verlaine, and Stphane Mallarm. This exploration of Pound's canon demonstrates his logic in borrowing from the French tradition as well as a paradoxical circularity to his poetic development. Hamilton begins by explaining how Pound read Gautier's poetry as an example of Parnassianism and of the "satirical realism" of Flaubert and the modern novelistic tradition. He reveals, however, a crucial blind spot in Pound's poetic vision that facilitated his return to precisely those romantic and proto-symbolist elements in Gautier that were celebrated by Baudelaire and Mallarm.

by Baudelaire and Mallarmé, and that Pound, as a modern poet, felt obliged to repress. Arguing that Pound's response to symbolism was not specifically modernist, Hamilton shows how his dual attraction to the lyric and prose traditions, to symbolism and realism, and to the visionary and the historical helps us better to understand our own post-modern sensibility. Ezra Pound's Early Verse

Ezra Pound is one of the most significant poets of the twentieth century, a writer whose poetry is particularly notable for the intensity of its linguistic qualities. Indeed, from the principles of Imagism to the polyphony of his Cantos, Pound is central to our conception of modernism’s relationship with language. This volume explores the development of Pound’s understanding of language in the context of twentieth-century linguistics and the philosophy of language. It draws on largely unpublished archival material in order to provide a broadly chronological account of the development of Pound’s views and their relation to both his own poetry and to modernist writing as a whole. Beginning with Pound’s contentious relationship with philology and his antagonism towards academia, the book traces

A Transnational Poetics
Jahan Ramazani - 2015-09-04
Poetry is often viewed as culturally homogeneous—“stubbornly national,” in T. S. Eliot’s phrase, or “the most provincial of the arts,” according to W. H. Auden. But in A Transnational Poetics, Jahan Ramazani uncovers the ocean-straddling energies of the poetic imagination—in modernism and the Harlem Renaissance; in post–World War II North America and the North Atlantic; and in ethnic American, postcolonial, and black British writing. Cross-cultural exchange and influence are, he argues, among the chief engines of poetic development in the twentieth and twenty-first centuries. Reexamining the work of a wide array of poets, from Eliot, Yeats, and Langston Hughes to Elizabeth Bishop, Lorna Goodison, and Agha Shahid Ali, Ramazani reveals the many ways in which modern and contemporary poetry in English overflows national borders and exceeds the

Translations of Greek
works Pound used as the basis

**Ezra Pound** - Peter Liebregts
- 2019-10-03

Turning the tables on the misconception that Ezra Pound knew little Greek, this volume looks at his work translating Greek tragedy and considers how influential this was for his later writing. Pound's work as a translator has had an enormous impact on the theory and practice of translation, and continues to be a source of heated debate. While scholars have assessed his translations from Chinese, Latin, and even Provençal, his work on Greek tragedy remains understudied. Pound's versions of Greek tragedy (of Aeschylus' Agamemnon, and of Sophocles' Elektra and Women of Trachis) have received scant attention, as it has been commonly assumed that Pound knew little of the language. Liebregts shows that the poet's knowledge of Greek was much more comprehensive than is generally assumed, and that his renderings were based on a careful reading of the source texts. He identifies the

for his translations, and contextualises his versions with regard to his biography and output, particularly The Cantos. A wealth of understudied source material is analysed, such as Pound's personal annotations in his Loeb edition of Sophocles, his unpublished correspondence with classical scholars such as F. R. Earp and Rudd Fleming, as well as manuscript versions and other as-yet-unpublished drafts and texts which illuminate his working methodology.
